# Encapsulating Pre-Spray Treatment

A perfect pre-spray for heavily soiled traffic areas. Breaks down tough grease and dirt. For high powered cleaning, use in conjunction with Certified's Extraction Cleaner.

*Traditional detergents leave behind sticky residues that lead to rapid resoiling. But the **Structured By Nature** encapsulating detergent dries into a hard crystalline material that fractures off the carpet fiber during the dry vacuuming process. Therefore an important benefit of encapsulation is that any residue left behind is of a non-sticky nature, and consequently does not result in rapid resoiling.*

### Why Encapsulation?

- Leaves no harmful residue
- Prevents soil wicking
- No sticky residue
- No rinsing required
- Eliminates rapid re-soiling
- Carpets stay cleaner longer

**DIRECTIONS:** Shake well before using. Test fabric in inconspicuous place for color fastness before using.

1. Dilute 8 oz. (237 mL) of Pre-Spray to 1 gallon (3.78 L) of water.
2. Spray solution on carpet to be cleaned.
3. For best results, agitate with a carpet rake or agitation machine.
4. Allow 5-10 minutes of dwell time, DO NOT allow pre-spray to dry before extracting.
5. Clean carpets in the usual manner.
6. Vacuum carpet thoroughly when dry.

**NOTE:** Freezing will not affect cleaning power. Thaw, shake well and use.

- Improve indoor air quality
- Non-Toxic / Non-Caustic
- Low VOC's
- Biodegradable
- Improved worker health and safety
- Meets Environmental standards

Nilodor will continue to do it's part to insure a safe and healthy environment for our generation and those to follow.
