Product Specifications

Model	F203-A
Type	Standard refrigerant
Dimensions H × W × D	32 × 20 × 19.5 in. 83 × 50 × 50 cm
Use weight	80 lbs. 36 kg
Power	115V, 6.4 amps
Water removal max. (at saturation)	145 pints 68.6 liters /day
Water removal AHAM (80°F/60%RH)	64 pints 30 L/day
Temperature operating range	33°–100°F 1°–38°C
Compressor type	6670 BTU rotary
Defrost type	Hot-gas bypass
Process air output	227 CFM
Controls	Electronic touchpad
Water pump-out	Centrifugal
Drain hose length	40 ft. 12 m
Air filter	3M HAF (High Airflow)
Wheels	Semi-pneumatic
Handle	Rigid
Stackable	Stack up to 2 high for storage
Housing	Rotomolded polyethylene
Safety	ETL listed to CSA 22.2 #92
