## Velo and Velo Pro HEPA Kit

Converts your Velo airmover for general air scrubbing and dust control applications

The HEPA Kit allows the Velo and Velo Pro airmovers to be used for general air scrubbing applications. The HEPA attachment installs in minutes – no tools needed. A prefilter cover (included) extends life of HEPA filter.

### Product Features

- Half the weight of standard HEPA units
- Install or remove in seconds – no tools needed
- Great for pet dander control
- Works with any Velo or Velo Pro unit
- Get high quality air filtration at 15% of the cost of a standard HEPA air scrubber
