

Two Cleaning Essentials in One Machine

RA 431B DUO Duo Speed Mid-Size Battery Scrubber

Introducing the RA 431B DUO Dual Purpose Mid-Size Battery Scrubber

Every day, commercial floors tell a different story. Linoleum floors in schools, hospitals, offices and retail stores end up dirty, scuffed and dull.

The new **RA 431B Duo** is the perfect way to restore daily order to your floors with a single machine. Thoroughly clean using the brush attachment at 180 rpm, then quickly change to the polishing brush attachment or a polishing pad, switch to 500 rpm speed and polish.

RA431B Duo is also suitable for cleaning PVC, PU, cork and parquet flooring. Add the right protective floor conditioner and polish after cleaning for a lasting, dirt-repellent shine.

CLEAN **DUO** POLISH

Use the brush tool at 180 rpm to clean and scrub.

Change to polishing brush or pad and switch to 500 rpm to polish to a shine

Optional Polishing Pad Driver

Optional High Speed Polishing Pads

Wide Filling Inlet

30" Squeegee

Two essential cleaning tasks — One machine.

Introducing the RA 431B DUO
Duo Speed Mid-Size Battery Scrubber

Double-Duty

Clean, polish, — and consolidate. No need to have two separate machines to get the job done. Clean, scrub, pickup and polish your floors to a shine with storage space to spare.

Easy Operation

Much easier to operate than conventional single disc machines, the RA 431B DUO is self propelled, a breeze to steer and vibration free.

Versatile

Use on a variety of hard floors just to clean or clean and polish with your type of floor conditioners. It's powerful enough to clean a large area while still being user - friendly enough to bring out just for a spot removals or touch ups.

No Cord Constraints

Forget kicking the cord around and having to stop work to find outlets. RA 431B DUO is battery operated, and fully charged it offers 3 hours of highly efficient run time.

Technical data:

Order Number	269662
Squeegee Width	30"
Scrubbing Path	17"
Power Supply	24V DC
Power suction motor	400 W
Power brush motor	1000 /1400 W
Waterlift	44"
Fresh Water Capacity	9 gal
Dirty Water Capacity	10 gal
Productivity Rate (theoretical)	15,000 sq ft / hr
Brush Speed Low (scrubbing)	180 rpm
Brush Speed High (polishing)	500 rpm
Brush pressure	106 lbs
Battery charging time	6h
Run time	3H
Weight (incl. Battery)	293 lbs
Measurements l/w/h	33"/17"/31"
