

Sophisticated and Maneuverable

RA 535 IBCT - Compact Ride-On Scrubber

**Our Smallest,
Most Efficient,
Ride-On Scrubber,
Ever!**

Tight curves, narrow doorways, confined corridors are all a piece of cake for this new ride-on scrubber-dryer.

The fully automatic suction base is installed beneath the vehicle and is protected so it won't get stuck.

Makes cleaning twice as fast then with a conventional walk-behind scrubber.

RA 535 IBCT

**Slide-out battery box
and charging plug**

**Operating panel with
battery life indicator**

**Suction squeegee placed
directly behind brush**

Get the Job Done Faster!

Quick and responsive drive motor, comfortable fatigue free seating, large scrubber size and high maneuverability. Add it all up and you **spend less energy and less time cleaning!**

Get the Job Done Cheaper!

With the optional Cleanfix Advanced Dosing System (CADS*), the chemical product is dosed to the fresh water just before the cleaning solution outlet. Just set the concentration of the chemical product, connect the canister and start working. **This can save you up to 50% in chemical costs!**

Additional Features

Non-slip foot rest and pedal

Comfortable seat

Easy water drainage
