

Mark 10 Bathroom Cleaner

For Toilet Bowls and Bathroom Maintenance.
Deodorizes, cleans, removes rust stains and hard water deposits.

Mark 10
ST-734, 1 fl. oz. pack

ST-No.	Case UPC No. Mfg. No. 071206	Each UPC No. Mfg. No. 071206	Case Size	Case Weight	Cases/Pallet	Pack Yield
ST-734	008688	N/A	72 x 1 fl. oz. packs	6.75 pounds	154	1 Quart
ST-746	008893	N/A	10 x 10 fl. oz. packs	9 pounds	100	5 Gallons
ST-9925	009111	N/A	12 x 32 oz. empty silk-screened bottles		40	N/A
ST-9911	N/A	008930	5-Gallon Quik Tank container w/faucet		36	N/A

Personal Protective Equipment: 1. Wear protective gloves.
2. Wear protective eyewear.

Unused Product Disposal: Unused product or its solutions may be poured down the drain. Never pour unused product or its solutions down an outdoor drain.

Improper dilution or improper use of this product may result in skin and eye irritation, damage to surfaces and unsatisfactory cleaning performance.

Pack Recycling: Empty packs should be rinsed out with cold water and then placed for recycling where accepted.

RESTROOM CLEANER

Deodorizes, cleans, and removes stains. A combination of phosphoric acid with quaternary ammonia. Use a one-ounce pack per bowl or per 32-ounce bottle for spray-and-wipe cleaning.

Sinks, countertops, tubs, and shower stalls are sparkling clean when *Mark 10* is used as an all-purpose bathroom cleaner. Apply with a spray bottle or sponge for labor-saving convenience. Toilet bowls are cleaned with just one pack per bowl.

Directions for use with 32-oz. spray bottles

To Deodorize, Clean, and Remove Stains in the Bathroom: Mix each 1-ounce pack with 1 quart of water for all-purpose spray-and-wipe cleaning.

Directions for use with 5-gallon Quik Tank System

Fill the 5-gallon Quik Tank container with water and add one 10-ounce pack. Fill your No. 9925 spray bottle from the 5-gallon container, and you're ready to clean. For heavy-duty cleaning, add two packs per 5 gallons of water.

Chemical Characteristics

Abrasive	no
Appearance	clear liquid
Biodegradable	yes
Corrosive	no
Fragrance	no fragrance added
Non-Flammable	yes
NSF Certified	C2
pH (concentrate).....	< 0.5
(use dilution 1:32)	1.9
Phosphate-Free	no
Sara 313 notification required	no

Ingredients

The primary ingredients in *Mark 10 Bathroom Cleaner* are water, phosphoric acid, and nonionic and cationic surfactants.

SECTION 2 – HAZARDOUS INGREDIENTS / IDENTITY INFORMATION

<u>CHEMICAL IDENTIFICATION</u>	<u>CAS NO.</u>	<u>OSHA PEL</u>	<u>ACGIH TLV</u>	<u>OTHER LIMITS</u>	<u>%(Optional)</u>
Water	7732-18-5				
Phosphoric acid	7664-38-2	1 mg/m3	1 mg/m3	3 mg/m3 (STEL)	25-35
Alkyl dimethyl benzyl ammonium chloride	68391-01-5				5
Alkyl dimethyl ethyl benzyl ammonium chloride	68956-79-6				5
Methyl-oxirane polymer	9003-11-6				1 - 3
SARA Section 313 Title III Notification Required: Yes; <u>Chemical in Product:</u> Phosphoric acid; <u>CAS#:</u> 7664-38-2; <u>Weight % of Chemical:</u> 25-35					

SECTION 3 – PHYSICAL DATA

Appearance and Odor: Clear liquid, slight detergent chemical odor, no fragrance added	Solubility in water: Complete	Vapor Pressure (mm Hg): N.D.	pH (Concentrate): < .5
	Boiling Point: N.D.	Vapor Density (Air=1): N.D.	pH (1% Solution): 1.9 @ 22° C
	Melting Point: N.A.	Evaporation Rate (Water=0.3): N.A.	Specific Gravity: 1.182

SECTION 4 – FIRE AND EXPLOSION HAZARD DATA

Flash Point and Method: Non-combustible, >200°F	Special Fire Fighting Procedures: Use full protective clothing and self-contained breathing apparatus. Thermal decomposition emits toxic fumes of oxides of phosphorous and sulfur.
Flammable Limits LEL: N.A. UEL: N.A.	Unusual Fire & Explosion Hazards: Extinguish all nearby sources of ignition since flammable hydrogen gas will be liberated from contact with some metals. Reacts violently with strong bases.
Extinguishing Media: CO ₂ , water, dry chemical	

SECTION 5 – REACTIVITY DATA

Chemical Stability: Stable: <u> X </u> Unstable: _____	Hazardous Polymerization: May Occur _____ Will Not Occur <u> X </u>
Conditions to Avoid: Freezing and extremes of heat.	Hazardous Decomposition or By-Products: Oxides of phosphorous upon decomposition and at flame temperatures.
Incompatibility (Materials to Avoid): Strongly alkaline (caustic) materials, reactive metals (mild steel, aluminum), nitric acid, cyanides or sulfides.	

SECTION 6 – HEALTH HAZARD DATA/FIRST AID PROCEDURES

Health Hazards (Acute and Chronic): Irritation or corrosion may occur to exposed tissues, especially eyes, skin, throat, nasal cavities and other mucous membranes from contact with the product, its use solutions, or mists and vapors generated by the product. Eye contact may cause blindness. Ingestion may be harmful or fatal.	<u>Emergency and First Aid Procedures:</u> Eyes: Flush with cool water for at least 15 minutes. Consult a physician. Skin: May be irritating. If contact occurs, flush with water and wear gloves in the future to minimize exposure. Wash hands after handling. Discontinue use if irritation persists and consult a physician.
Signs and Symptoms of Exposure: Irritation of exposed tissues. Chronic exposure causes burns. Eyes, skin and mucous membranes may be simultaneously irritated or burned if exposed to mists of product or solutions.	Inhalation: Remove from exposure. Obtain medical attention immediately. Ingestion: May be harmful if swallowed. Drink large amounts of water or milk. DO NOT induce vomiting. Get medical attention immediately. Avoid contamination of foods.
Medical Conditions Aggravated by Exposure: Dermatitis.	
Carcinogenicity: IARC Monographs? Yes _____ No <u> X </u>	
NTP? Yes _____ No <u> X </u> OSHA Regulated? Yes _____ No <u> X </u>	

NOTE TO PHYSICIAN: Extremely corrosive agent which will burn exposed tissues upon (other than very brief) contact. Flush eyes, skin and mucous membranes with water. Consult an ophthalmologist for any corneal burns. In case of ingestion, dilute with water, milk or demulcent liquids, but attempts to neutralize with a base should be avoided because of excessive base and heat formation, which may increase the threat of esophagogastic perforation. Vomiting and diarrhea (laxative effect of phosphates) are to be expected with large doses. Parenteral fluid administration may be needed if losses are severe, or if shock ensues. Use supportive care for complication such as glottal edema, hematemesis and perforation (unlikely). Induced vomiting should be avoided because local tissue injury may be aggravated. Watch the patient for hyperphosphatemia and hypocalcemia. Milk or other demulcent liquids may be worthwhile for gastric irritation.

SECTION 7 – PREVENTATIVE AND CONTROL MEASURES

Ventilation: Local Exhaust: To control below TLV of 1 ppm for phosphoric acid in 8 hours. Mechanical: To control below TLV of 1 ppm for phosphoric acid in 8 hours.	Steps to be Taken if Material is Spilled or Released: Small spills: Mop up and dispose of in DOT approved waste container. Large spills: Contain by diking with soil or other absorbent material and carefully neutralize with soda ash or lime. If soda ash is used, provide adequate ventilation to dissipate carbon dioxide gas. Keep unneutralized material out of sewers, storm drains, surface waters and soil.
Skin Protection: Use neoprene, rubber, or other chemical resistant gloves.	Waste Disposal: Comply with all local, state and federal regulations. Consult your state DNR or the EPA for specific questions. Wastewater should never enter a fresh water body without treatment.
Eye Protection: Avoid eye contact.	Handling and Storage: Store in a dry, well-ventilated place, above 50°F. Store away from all other chemicals and potential sources of contamination. Do not use pressure to empty container. Wash thoroughly after handling. Do not get in eyes, on skin, or on clothing.
Respiratory Protection: In general, respirators are not needed if the product is used in a well-ventilated area.	
Other Precautions: Empty container may have residues, gases and mists, and are subject to proper waste disposal, as above. Always obey hazard warnings and handle empty containers as if they were full. Keep out of the reach of children.	

SECTION 8 – OTHER REGULATORY INFORMATION

California Safe Drinking Water and Toxic Enforcement Act of 1986: Ethylene oxide 75-21-8 (trace)	
Massachusetts & Pennsylvania Right-to-Know law: Ethylene Oxide 75-21-8 (trace)	
This MSDS data relates only to the material designated and does not relate to its use with any other material or process. The data is believed to be accurate. However, since use conditions vary and are outside our control, Stearns Packaging Corporation makes no warranties, expressed or implied, and assumes no liability for failure to follow directions and safety precautions.
