#### Empty Refill Indicator

Flashing red light indicates it is time to insert a new aerosol refill. Eliminates all guesswork!

#### Customized Dispensing

Monthly battery replacements are a thing of the past. Smart Chip technology extends battery life to 2 years or longer on one set of alkaline batteries... a big cost saving feature!

#### Audio Indicator

Works in conjunction with the red and yellow L.E.D.s. One sound is emitted for low batteries while a different sound indicates an empty refill.

#### Keyless Lock
