MADE IN THE USA

Product Description:

- Kit Includes:
  - RS001-0412 Respiratory Hygiene Station
    - Holds two boxes of face masks, one - two boxes of facial tissues or one box of gloves, and one hand sanitizer bottle or hand sanitizing wipe canister
    - Quartz Beige Powder-Coated Steel
  - KS010-0412 Floor Stand
    - Quartz Beige Powder-Coated Steel
  - MP-070 Sign Holder - Vertical
    - Holds 8.5" x 11" signage
    - Clear PETG Plastic
- Assembly hardware included

Primary Area for Product Usage:

- All ports of entry
- Anywhere respiratory hygiene products are needed

Dispenses:

- Left: Bottles no larger than 4.25"W x 4.00"D or 4.00" diameter (10.8 cm x 10.2 cm)
- Middle: Box(es) no larger than 8.00"W x 9.50"H x 4.75"D (20.3 cm x 24.1 cm x 12.1 cm)
- Right: Box(es) no larger than 5.50"W x 9.50"H x 4.75"D (13.7 cm x 24.1 cm x 12.1 cm)

Product Specifications (overall assembled dimensions):

- 17.97"W x 59.13"H x 17.00"D (45.6 cm x 150.2 cm x 43.2 cm)
- 20.4 lbs (9.3 kg) - approximated

Package Specifications:

- Package Quantity: 1 per case
- 36"L x 20"W x 6"H (91.4 cm x 50.8 cm x 15.2 cm)
- 25.0 lbs (11.3 kg) - approximated

Sanitizer, face masks, and tissues not included

Assembly Instructions

BOWMAN®
Dispensers
Organize · Contain · Comply

Assembly
Always mount dispensers securely *prior* to loading with product.
1

Base

Bottom of column

Top of column

To secure base to column, turn column upside down (with top plate down) and place base inverted, as shown, on column.

2

Use Phillips screwdriver to secure base to column with (4x) screws (10-32 x 5/16").

3

Column Assembly with Top Plate

Base

Turn stand right side up, so the base is on the floor.

4

Top Plate of column

Attach the RS001-0412 Respiratory Hygiene Station to the column using (4x) screws included with stand. Tighten.

5

To mount the MP-070 Sign Holder, align the holes of the holder with the holes of the dispenser. With a flathead screwdriver, attach using (2x) barrel screws included with sign holder.

6

Thumb access to signage goes toward back of dispenser.

Parts included:

- Base
- Column
- Respiratory Hygiene Station
- Sign Holder

- Hardware
  - (8x) 10-32 x 5/16" Phillips head screws
  - (2x) barrel screws

Tools Required:

- Phillips Screwdriver
- Flathead Screwdriver

Characteristics & Care

RS001-0412 & KS010-0412
Powder-Coated Steel

MP-070
PETG Plastic

Material Characteristics

Designed for Long-Term Use

Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature.

Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service.

Designed for Long-Term, Heavy-Duty Applications

Copolyester resin is designed for heavy-duty applications, and is used by BOWMAN® Dispensers. We never use acrylic in our products.

Copolyester (PETG) is typically 15-20 times tougher than general purpose acrylic. PETG is made to withstand handling and reduce losses due to breakage.

PETG resists a variety of chemicals and commonly used cleaning agents. It is tough and durable (not brittle), providing years of trouble-free functionality and long life.

Clear optical characteristics mean the viewer can see the content, read text, and see true colors through the material. It complies with FDA regulations for food contact.

Care and Cleaning

For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a non-abrasive cloth. Standard hospital cleaning supplies can be used.

Dry with a soft cloth. Do not use any solvent-based materials, abrasives (e.g. Scotch-brite, steel wool), or apply excessive force during cleaning.

Most cleaning chemicals do not weaken the surface or cause damage to the material. Suggested cleaning method is to use a soft cloth, warm water, and mild soap.
