

Care and Construction

Polyurethane/Vinyl

Material Characteristics

Designed for Durable, Transparent Applications

Polyurethane (PU) is a plastic polymer composed of organic units joined with links of carbamate (urethane). It combines diisocyanates (TDI and MDI) and polyols.

Our domed decals are flexible and resistant to drying, cracking, and yellowing over time.

Product Description:

- Size Indicator Decals
- Label dispensers and other organizational units to indicate sizes of gloves, masks, and other commonly used products
- Decals are same diameter as a U.S. penny
- Standard permanent adhesive backing
- 32 decals (4 sheets of 8) per package to label extra small through extra large (4 XS, 8 S, 8 M, 8 L, 4 XL)
- White Vinyl backing, Clear Polyurethane dome

Primary Area for Product Usage:

- Any dispenser that needs visible size indicators

Application:

- Clean and dry surface thoroughly
- Apply decal

Product Specifications (overall external dimensions):

- 0.75" diameter x 0.06"H (1.9 cm x 0.2 cm)
- 0.02 lbs (0.01 kg) - approximated

Package Specifications:

- Package Quantity: 1 pack per envelope
 - 7"L x 5"W x .75"H (17.8 cm x 12.7 cm x 1.9 cm)
 - 0.1 lbs (0.05 kg) - approximated

Care and Cleaning

Most cleaning chemicals do not weaken the surface or cause damage to the material. Suggested cleaning method is to use a soft cloth, warm water, and mild soap.

Do not place in direct sun.
