

NOVA™

NOVA™ LOOPED-END MICROFIBER WET MOP

Microfiber has become an important tool in the cleaning industry. However, not all microfiber mops are created equal. Traditional 100% Microfiber string mops shrink more than other wet mops and are more fragile in the laundering process. Our new Nova mop is the perfect blend of microfiber and traditional yarn, giving Nova the deep cleaning power of microfiber and the strength and longevity of a traditional blended mop. This attractive candy striped yarn is a 4-ply blend that glides easily over floors, and can be used in all general cleaning applications. Contact Golden Star today for more information on the new Nova mop!

Features & Benefits

- Deep cleaning action of microfiber
- Less shrinkage compared to other microfiber string style wet mops
- Excellent absorbency
- Can be used for all general cleaning applications
- Provides ease of use, glides across the floor easily
- Launderable
