

A BETTER CLEAN WITH MICROFIBER

RELINTLESS™
LOOPED-END MICROFIBER WET MOP

Superior performance and durability

Join the microfiber revolution with Golden Star's Relintless wet mop. Get the superior performance of microfiber clean combined with the rugged durability of a looped-end wet mop. The Relintless mop glides smoothly over rough, abrasive floors providing the ultimate clean. Its unique microfiber blend picks up even the smallest dirt particles for deep cleaning. True to its name, the Relintless mop won't shred or lint on abrasive surfaces making it the ideal choice for use in even the most demanding environment.

Benefits

- Looped-end construction & double tail-bands provides even coverage.
- Reduces mopping time by 30% compared to disposable wet mops.
- Absorbs twice the amount of liquid of a disposable cotton mop.
- Professional grade wet mop absorbs 5-6 times its weight in moisture.
- Picks up moisture more rapidly, reducing slip hazards.
- Reduce chemical usage by 60-90% depending on the surface and soil content of the area being cleaned.
- Micro fiber is anti microbial and mildew resistant, odors and mold growth are virtually non existent.

Why rent versus purchase disposables:

- Fresh clean mops delivered with each delivery cycle.
- Average Annual savings renting versus purchasing is 30-40%.
- No Inventory to manage.
- Cleaner healthier environment for employee's and customers alike.
- More effective cleaning reduces floor refinishing frequencies and costs.
