

RAZOR[®] SV17 & E17

Excellence... on a smaller scale.

KENT
Simple. Clean.

Perfect for tight spaces *and* tight budgets.

Say goodbye to the mop and bucket.

Introducing the Razor® SV17 and E17, the smart-sized, full-featured scrubbers from Kent. Their ultra compact profiles make them the perfect solution for small areas that require frequent cleaning... the kind of spaces that used to be "mop and bucket" territory.

In typical Kent fashion, both units deliver a level of features you might have only expected to see on a bigger scrubber... with a bigger price tag. Their seven gallon solution and recovery tanks are an ideal size for small spaces, and Kent's ECO System™ eliminates waste and reduces risk by controlling detergent levels and dispensing exactly the right amount of solution. The Razor SV17 operates at a whisper-quiet level of 67 dB A, enabling cleaning duties to be performed during business hours without disrupting the business at hand.

Like all Kent products, the Razor SV17 and E17 are built to save you time right out of the box... and money over time. Features like an onboard battery charger, Prolene brushes and maintenance-free gel batteries make the SV17 easy to maintain and extend the life of the product.

The Razor SV17 and E17 are easy to use, easy to maintain and hard not to like.

KENT
Simple. Clean.

Adjustable handle makes operation comfortable for users of any height

Break away squeegee prevents damage to property and scrubber

Click-on/click-off brush is quick and easy, and requires no tools

Prolene brushes deliver superior performance and long life

Cord-electric version features a 65 foot removable cord for convenience when dumping and refilling tanks

The Razor SV17 & E17 are perfect for...

- Restaurants
- Retail Establishments
- Schools and Childcare
- Convenience Stores
- Office Buildings
- Contract Cleaning Services

**7 gallon capacity
makes cleaning efficient**
