

ECB 1500 & ECB 2000

Cord Electric Burnishers

Euroclean

ECB 1500 & ECB 2000

Polished Performers

If burnishers are part of your equipment arsenal, Euroclean has two high value, high performance machines that you are certain to take a shine to. The Euroclean ECB 1500 and ECB 2000 are perfect choices for retail, hospitality, healthcare, government buildings or anywhere else that a high sheen finish is desired.

The ECB 1500 and ECB 2000 are built to deliver years of reliable duty. Powerful and efficient, direct drive motors eliminate belt issues, and help distribute weight and pressure. And thanks to a unique dual-compression spring technology, these machines are easy to handle; they'll turn even the most inexperienced operators into polished burnisher operators in no time.

The ECB 1500 and ECB 2000 also deliver some of the features that make your day a little more efficient. A rotating cord hook saves time and effort while uncoiling the power cord. Fold-and-Stow™ construction makes changing the pad a breeze and they can easily be stored in narrow spaces. And their durable roto-molded plastic construction won't show the scrapes and bumps that come with the job. If your responsibilities include healthcare applications, you'll also appreciate the heavy-duty hospital grade plugs and hospital-quiet sound level at 65 dB A.

If dust control is a priority, the ECB 2000 is a smart choice for the money. A flexible pad driver and Euroclean's aerodynamically engineered floating felt skirt help the machine hug contours and keep air and dust particles from escaping. Dust collects where it belongs; in the easy access collection bag, so there's never any need for follow-up dusting. The ECB 2000 delivers the kind of performance and value that make it easy to step-up to a dust control model.

Red safety switch is only activated when handle is tilted back for use

Electrically detachable motor for easy service access

Direct drive motor

Carbon brush replacement indicator light

Flexible pad driver

Euroclean

Dual compression spring technology provides for consistent results regardless of the operator

Simple, one step handle release

The ECB 1500 & ECB 2000

models are perfect for...

- Healthcare Facilities
- Hotels/Hospitality
- Schools
- Religious Facilities
- Government Facilities

Fold-and-Stow™ construction allows the Euroclean ECB 1500 and ECB 2000 to be stored in the smallest of cleaning closets.

Rotomolded body provides lasting durability

Fold-and-Stow™ construction makes for easy pad changing

TECHNICAL SPECIFICATIONS
