**Caster/Wheels**

5" front casters, 12" rear wheels

**Power Cords**

Dual 50' 12/3

**Dimensions**

30" x 20" x 48"

### Amazing performance from a portable unit

The 1003DX is the most powerful portable available. Featuring a 500 PSI adjustable pump, dual 3 stage vacuums, and a 2000 watt in-line heater, the 1003DX will help you achieve maximum efficiency, minimal dry times, and optimal cleaning performance.

### PERFORMANCE

The 1003DX's combination of a 500 PSI pump and a 2000 watt heater provides awesome cleaning power, ensuring that greasy dirt is broken up fast. This combination can keep up with even the dirtiest of carpet cleaning jobs.

### CONVENIENCE AND SAFETY

The 1003DX has a built in circuit detector to help you locate the power you need. The detachable 50' extension cords are longer in length compared to the industry standard. Waist-high switches and easy-access components eliminate bending and ease operation.

### DURABILITY

The 1003DX is built in a high quality rotomolded housing, which resists cracking, denting, and rusting. The wheels and casters are non-marking and chemically resistant, and the switches are protected by waterproof covers.

### POWER

The 1003DX is the most powerful unit in it's class in the industry. Nobody else packs this much vacuum, heat, and pressure into a 12 gallon unit.

### VERSATILITY

The solution pump is fully adjustable, and can operate anywhere between 50 and 450 PSI, which makes it perfect for everything from carpets to upholstery.

- 1 EASY OPEN LID
- 2 WAIST HIGH CONTROLS
- 3 2" INLET FOR INCREASED CFM
- 4 BUCKET HIGH DRAIN
- 5 ADJUSTABLE PRESSURE REGULATOR
- 6 STAIR CLIMBING REAR WHEELS

At Mytee, we stand behind our products with service and warranties. The 1003DX Speedster™ is backed by a lifetime limited factory warranty and nationwide service network.
