

Reflection 22

High Speed Performance Floor Finish

Reflection 22 is the ultimate polymer floor coating for use on virtually all floors and maintenance programs. Use as a seal and finish or recoat over existing floors. Beautiful rich, clear, deep high gloss appearance with extended wear and performance. Reflection 22 provides a long-lasting coating on all resilient tile, synthetic, rubber, linoleum, and terrazzo floors. Withstands repeated buffing and burnishing including propane machines. Ideal for use in high traffic areas where optimal appearance is important.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Application: For best results, floors should be clean and/or old coatings removed and the floor neutralized.

1. Apply finish in full uniform coats.
2. Allow to dry before recoating.
3. For maximum performance, apply additional coats of finish until the desired level of appearance and protection is achieved.
4. Allow to dry thoroughly before reopening up area for traffic.

Buffing: This finish can be spray buffed or high speed buffed. Follow directions of buffing compound.

Stripping: This finish can be removed using a high quality Nyco stripping solution.
