

At-Eze

Oven & Grill Cleaner

Heavy duty alkaline foaming cleaner for ovens and grills. Foam clings to vertical surfaces including wire racks and trays for more effective cleaning in less time and with less labor. Concentrated blend of penetrating agents and surfactants. Loosens, lifts, and cleans baked-on, carbonized soils from grills, ovens, rotisseries, barbecues, hoods, and other food service equipment. Low odor formulation.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Do not use on aluminum, copper or other soft metals. May be harmful to painted surfaces. Warm surfaces to 150°F for best results. Remove food from surfaces to be cleaned. Wear appropriate PPE.

Ovens and grills:

1. Apply solution with sprayer or brush.
2. Allow solution to remain on surface for 5 minutes.
3. Scrub with brush or synthetic pad.
4. Wipe loosened soil from surface and rinse with fresh clean water.

Deep fat fryers:

Dilute 4 oz. of solution per gallon of water and follow same steps as above.

FAST FACTS

- Foam clings to vertical surfaces including wire racks and trays
- Quickly loosens and removes heavy baked-on soils
- Use as an RTU spray or dilute for cleaning fryers, pans, etc.
- Fast and effective cleaning
