

Dust Trax

Water Based Dust Mop Treatment

Control dust on floors and other surfaces with this convenient, ready to use, water-based dust mop treatment. Removes harmful abrasive dirt and dust. Safe to use on finished floors. No oily residue to attract dirt and grime. Regular use makes floors look better and last longer and improve indoor air quality (IAQ). Turn dust mops and dust cloths into dust magnets.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Best results are obtained when mops and cloths are treated and stored in plastic bags overnight.

Dust mops:

1. Lightly mist and spray the surface of the dust mop. Do not oversaturate.
2. Dust mop floors in normal fashion.

Dust cloths:

1. Lightly mist and spray the wiping cloth. Do not spray directly onto surface to be dusted.
2. Dust in normal fashion.
