# RELIABLE CLEANING

## Does Your Current Cleaning Routine Really Work?

If you use an upright vacuum for carpets, a broom for hard floors, and separate tools for dusting, your cleaning inconsistency and inefficiency issues may already be apparent.

An **upright vacuum is difficult to navigate in a restaurant environment.** The beater bar and other moving parts quickly clog with food scraps, paper waste and other common dining room debris and employees usually end up just using a floor sweeper or broom. The cleanliness of the restaurant then suffers.

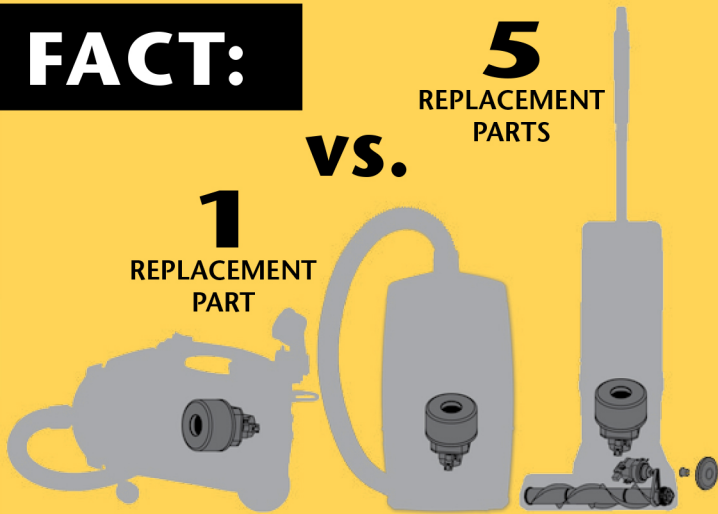

ProVac backpack and canister vacuums are different. They use direct suction to clean all the debris—from the microscopic particles to the French fries—with no beater bar to clog or belts to break. Get a better, more reliable clean on **carpets, hard floors, windowsills, blinds, and other hard-to-reach areas.**

**FACT:**

**vs.**

**1**  
REPLACEMENT  
PART

**5**  
REPLACEMENT  
PARTS

### ADVANTAGES:

- Fewer moving parts = greater reliability.
- Cleans hard surfaces and carpet.
- Lightweight and maneuverable wands that reach under tables and around chairs.
- Clean high and low for 360 degree cleaning.
- Faster and more efficient than a broom or upright.

### YEARLY COST OF OWNERSHIP

ProTeam vacuums have lower repair costs than other vacuums. (Reflects 2013 prices)

PART	PROTEAM BACKPACK	PROTEAM SPEED CANISTER	SINGLE MOTOR UPRIGHT

# CLEAN BETTER

THE RIGHT TOOL FOR THE JOB

**PROVAC® FS 6**

- Designed to triumph over foodservice demands
- Easy to maintain

**PROFORCE® XP**

- Cost effective dual motor
- Low profile with HEPA filtration

**PROGUARD® WET/DRY**

- Handy for emergency spills
- Maneuverable

**PROBLITZ® XP AIRMOVER**

- 3 fan speeds
- Collapsible handle and wheels

**PROVAC CN**

- Exceptional cleaning strength

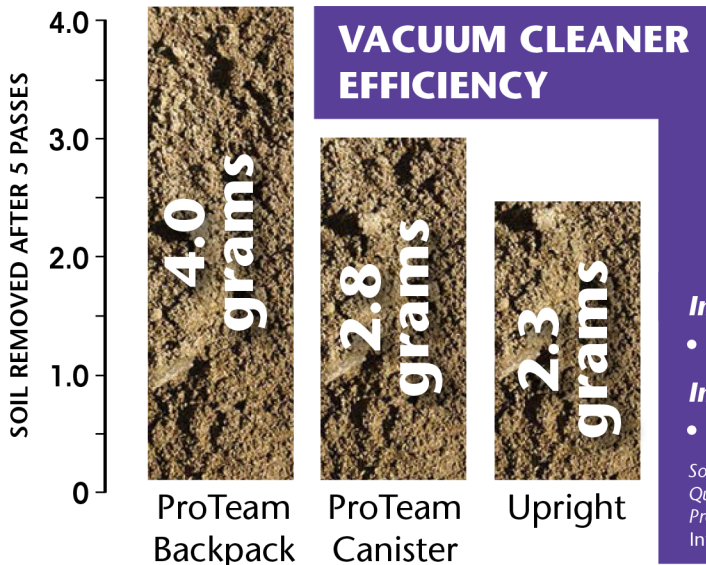

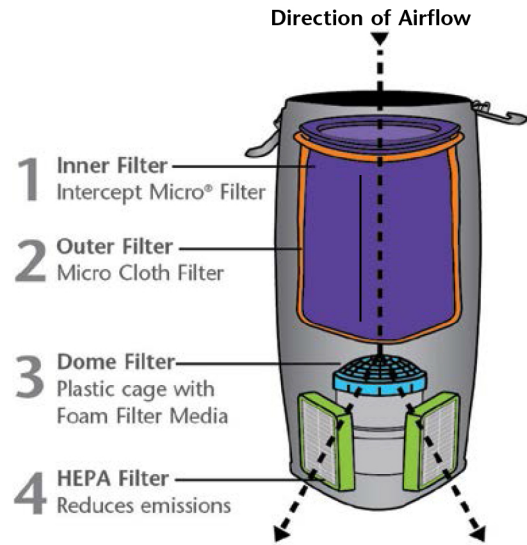

**SUPER HALFVAC® PRO**

- Compact
- Versatile harness system

## Cleaning for Health®

### ProTeam's Unique Suction Cleaning Method:

- **CLEAN CARPET AND HARD SURFACES** without stirring up dust.
- **AIR STAYS CLEANER**, reducing the need to dust as often.
- **FOUR LEVEL® FILTRATION** systems are at least 99.97% efficient in filtering particles measuring 0.3 micron and larger.
- **VACUUMS DESIGNED TO IMPROVE** indoor air quality.
- **LOW DECIBEL LEVELS REDUCE** noise pollution.

### Backpack Vacuum Cleaning Efficiency vs. Sweeping on Hard Surfaces

In soil removal tests conducted at Turi Surface Solutions Laboratory: A ProTeam Backpack vacuum removed more than 98% of the soil – a 10% increase with vacuuming compared to sweeping.

Source – Toxics Use Reduction Institute (TURI), University of Massachusetts Lowell, November 2012.

**In 5 passes, the ProTeam backpack vacuum is:**

- **43% more efficient than a commercial upright vacuum.**

**In 5 passes, the ProTeam canister vacuum is:**

- **22% more efficient than a commercial upright vacuum.**

## PROOF POSITIVE

**Grady Landis, Owner of Mellow Mushroom, Athens, Georgia**

"If I have my workers sweep and mop the entire restaurant, it takes 45 minutes. Our ProTeam vacuums get it done in 15 minutes. I can use the time saved for side-work or to get my workers off the clock. It saves money. Our ProVac backpacks cut our cleaning time by more than half. The wand is quick, lightweight, and easy-to-use."

**Amid Obeid, General Manager, Denny's, Hawthorne, California**

"Our ProVac CN is easy for employees to use and maintain. They can pull it around quickly, and empty the filter just by pulling the bag out," says Obeid. "And it's much quieter than our other vacuum. We can use it around customers without a problem."
