TOOLS

24" Quick Connect Frame with Squeegee

24" MF Wet Pad

Dustpan

Safety Sign

Quick Connect Handle of Choice

TIPS

- Follow all established safety procedures.
- Wear all appropriate personal protective equipment (glasses, gloves, etc.).

HOW TO: USE THE PULL SQUEEGEE FOR WET OR DRY PICKUP

ATTACH QUICK CONNECT HANDLE TO SQUEEGEE

- 1 Affix Quick Connect Handle to 24" Frame with squeegee.
- 2 Lift mop slightly off floor and squeegee will naturally fall downward into position.
- 3 4 Touch squeegee blade to floor and flip frame upright to latch onto handle.

DRY COLLECTION

- 5 Set up the floor safety sign.
- 6 7 Sweep in a "Figure 8" motion working backwards to collect dry dirt and dust.
- 8 Sweep debris into dustpan for removal.

LIQUID COLLECTION

- 9 Set up the floor safety sign.
- 10 11 Using the same "Figure 8" motion outlined in "Dry Collection", squeegee liquid to floor drain (if available).
- 12 If no floor drain is available, liquid can be picked up using a 24" wet pad. Place pad, hook and loop side up, over the "puddle" to soak up moisture.
Unlatch frame from handle lock by stepping lightly on top edge of frame. Then center frame over pad and slide it down to attach pad with hook and loop system.
Using either "Figure 8" or push/pull motion, soak up balance of liquid.
