

HANDLE TRIGGER INSTALLATION INSTRUCTIONS

What You Will Need

- Handle Trigger
- Phillips head screwdriver
- Knife

Step 1
Measure 1 1/2" from the top of the button.

Step 2
Cut Horizontally all the way around the handle at the 1 1/2" mark.

Step 3
Cut from the top down to where you made your mark at 1 1/2".

Step 4
Remove the padding.
*Note: DO NOT remove or tamper with switch screw.

Step 5
Remove the screw on the trigger.

Step 6
Gently pull apart so it will slide onto the handle.

Step 7
Slide onto the handle past the screw and where it's just above the padding.

Step 8
Tighten the screw on the Handle Trigger.
