

WATER-SOLUBLE • PREMEASURED PACKETS • DISPENSER FREE Packaged For Institutional and Industrial Use

POT & PAN DETERGENT

MAKE DISHWASHING INEXPENSIVE
AND EASY WITH *POT & PAN*
DETERGENT.

Pot & Pan Detergent provides professional-strength cleaning while controlling costs. Use **Pot & Pan Detergent** to effectively clean dishes, pots, pans, utensils, flatware, glassware and foodservice equipment.

Pot & Pan Detergent is premeasured and packaged in a 100% biodegradable water-soluble film that dissolves completely in water. No need to measure, pour, or cut open packages. Drop one water-soluble packet of **Pot & Pan Detergent** in hot water. Allow your dishes to soak, then scrub and rinse clean. It's that simple.

Directions for Manual Dishwashing

Pots and Pans: Use one packet of **Pot & Pan Detergent** in up to 5 gallons of hot water. To remove cooked-on food, soak pots, pans and utensils in a hot water and **Pot & Pan Detergent** solution for 10 to 20 minutes. After soaking, scrub clean, rinse in potable water, and sanitize if necessary according to state health regulations.

Dishes, glassware & flatware: Use one packet of **Pot & Pan Detergent** in up to 5 gallons of hot water. For best results, wash glasses before more heavily soiled items, and reduce the amount of water in the sink. Change water frequently. After washing, rinse in potable water and sanitize if necessary according to state health recommendations.

For extra-heavy grease: Use two packets of **Pot & Pan Detergent** per 5 gallons of hot water and/or reduce the amount of water in the sink. Soak grease filters and very greasy pans and trays prior to scrubbing, then scrub clean.

NOTE

To estimate sink capacity, multiply the width, length and height (to normal fill level in inches). Divide the answer by 231 for an estimate of the gallon capacity of the sink.

Ingredients

The primary ingredients in **Pot & Pan Detergent** are sodium carbonate, anionic surfactants, sodium chloride, and sodium aluminosilicate.

Packaging

ST-817 is packed 2 x 90 x 0.5 wt. oz. packets per case, case weight is 7 pounds.

Caution

Do not handle packets with wet hands. Do not remove packets from container prior to use. Humidity and water will destroy the packet integrity.
