OneShot® Low Profile Automatic Soap System
Quick Installation Instructions

1. Mount OneShot® Low Profile dispenser in counter top.

2. Insure all components and wires are installed/connected properly.

3. Before installing refill, insure the tube on the refill bottle is fully inserted into the actuator/pump assembly.

4. Next, unlock pump on refill by twisting counter-clockwise. Actuator will pop up.

5. Guide refill tube up through bottom of motor assembly and up the spout.

6. Lock soap refill into place by turning clockwise a 1/4 turn.

7. **IMPORTANT - Press the Red refill reset button. This will automatically prime the soap refill bottle.**

OneShot® Low Profile Automatic Soap System
Frequently Asked Questions

What does the red flashing light mean?
It indicates the refill is low.
Please check fill level & change as needed.

Why is the red light still flashing after the refill has been replaced?
The RED reset button was not pressed after the new refill was installed.
Please press RED read button.

What does the yellow flashing light mean?
It indicates the batteries are low.
Change batteries if flashing, use ONLY "D" cell alkaline batteries.
